

80/20 Inc.
The Industrial Erector Set

UNITED CENTRAL
INDUSTRIAL SUPPLY®
a SunSource Company

SAFE & HEALTHY WORKPLACES

Our national network of distribution warehouses have access to the industrial equipment you need to keep your operations up and running.

UNITED CENTRAL AND 80/20 OFFER BARRIER SOLUTIONS TO SLOW THE SPREAD OF COVID-19.

Protecting the communities in which we live and work is top of mind as we navigate the rapidly-changing landscape of commerce. More than ever, in the wake of the COVID-19 pandemic, it is important to eliminate the spread of germs on commonly-used surfaces.

Hands-free solutions and those that help keep a safe distance between workers and customers are key, and 80/20 is playing an integral part in safeguarding workplaces.

- Aluminum extrusion and thermoplastic panels allow for quick and easy cleaning
- Ready to build on-demand
- Affordable and durable
- Customizable to your situation

WE ARE COMMITTED TO SUPPORTING OUR CUSTOMERS. OUR BRANCHES REMAIN OPEN, INCLUDING LOCATIONS WITH IN-STORE SERVICES. While our priorities are to keep employees and customers healthy and safe, we recognize that our locations serve essential markets such as food & beverage, oil & gas, transportation, waste management and municipalities to name a few. To support our partners in essential business and ensure the safety of your associates and ours, we have adopted these CDC Compliant Best Practices.

- Barriers to prevent entry into the store before completing a questionnaire filled out at the entrance on COVID-19 symptoms
- Our countertop techs are using a fresh pair of gloves with each customer they help
- We are disinfecting countertop areas and POS terminals regularly throughout the day
- No public use of restrooms at this time
- We have eliminated our coffee and water stations for customers
